

In-Plant Office

In-Plant Office Specifications

-gen² Avenir panels with glass stackers, available up to 9 feet high.

-Panels can be fabric, glass, or laminate on the inside or outside, or any combination of the three.

-Furniture can be completely customized to your needs with overhead bins, pedestals, lateral files, and work surfaces. Freestanding desks are also available.

-Ceiling is made of standard sized (2'x2' or 2'x4') drop ceiling tiles.

-Lights are controlled by an automatic on/off sensor to reduce energy consumption.

-All electric (outlets, lights) runs off 1 single power source (base-in-feed or power pole).

-Air Conditioner/Heater is available at extra cost. A/C is built into the in-plant office unit.
